Subject: Re: Fw: Analytical Request for Dimock - July 2012

Cindy -

As agreed during our phone call, the TAT on the ARF will remain 7 days, which is consistent with previous requests. I understand that the lab will make all efforts to provide the results within 3 days of sample receipt.

I realize that while the ARF is limited to manganese, the attached SAP and table of reporting limits includes the analytes included in the previous supplemental round 1 sampling. In the interest of time and money, I do not think that we will be preparing a revised SAP for this sampling event. The procedures include in the previous SAP will be followed. Per the ARF, only the analyses of manganese should be reported,

Hope this helps. Thanks again for all your efforts - Kelley

Subject: Fw: Analytical Request for Dimock - July 2012

We looked over the ARF and attached documents. The ARF is correct (except TAT - we had said 7 days but I realize that was before sampling was delayed - so now the request says 3). Can we have the request modified for 7 days (and we'll be early??)??

Also, the two documents attached with the ARF do not address the fact that we are only looking at Mn.

Cindy

Subject: Analytical Request for Dimock - July 2012

Dan/John,

Attached is the analytical request for the July 2012 sampling at Dimock which is scheduled to begin next week. The analyte/QL list and approved sampling plan are also attached.

Thanks,

Suddha Graves
